BULLETIN ON CURRENT LITERATURE

OF INTEREST TO CRIPPLED CHILDREN WORKERS

Vol. I, No. 12 December, 1940

Contents

Articles of general interest.....1
Education.....1
Hospitalization.....2
Vocational Rehabilitation.....2
Miscellaneous.....3
List of periodicals in which articles reviewed here originally appeared.....3

The last four pages of this December issue of the BULLETIN ON CURRENT LITERATURE are in the form of a list of 103 books on crippled children and allied subjects. Any of these books may be borrowed from the National Society for Crippled Children. Additional copies of this book list will be sent to anyone upon request.

Any publication or article listed in this bulletin may be borrowed free of charge from the Bureau of Information of the National Society for Crippled Children. Bibliographies listing similar articles, or loan package libraries containing additional literature on any of the subjects discussed in these articles, will be sent to any interested person upon request.

Articles appearing in the bimonthly magazine, THE CRIPPLED CHILD, or in the monthly news letter of this Society, THE CRIPPLED CHILD BULLETIN, are not listed in this bulletin, because all individuals and organizations receiving this bulletin also receive these two periodicals and other publications of this Society.

BULLETIN ON CURRENT LITERATURE
Prepared by Lillian Dowdell, Librarian

Issued monthly to affiliated state and local societies for crippled children, state agencies engaged in the treatment, education or vocational rehabilitation of cripples, and institutions, organizations or individuals having Institutional Membership in the National Society for Crippled Children.

ARTICLES OF GENERAL INTEREST

Ball, Georgia. Medical social needs of the crippled. Public Health Nursing, December, 1940. Vol. 32, No. 12, pg. 722.

"The crippled children's service under the Social Security Act is a medical program with a social goal. ... We are concerned that the disability which the child retains shall be as inconsequential as possible. ... To make disability - in the broad sense - as small as possible requires more than surgery, medical follow-up and good physical care. ...

"Every sick person must be accorded consideration of the interplay of medical and social factors if the broad goals of good medical care and minimum disability are to be achieved. The crippled children's program affords good illustration of this interplay at various points in medical treatment. It also brings out the methods by which nurses, doctors, administrators, child welfare workers, and others contribute to the fulfillment of a child's medical-social needs."

Ellis, William J. The handicapped child. The Annals, November, 1940. Vol. 212, pg. 138.

The entire November issue of The Annals of the American Academy of Political and Social Science is devoted to "Children in a Depression Decade." This article discusses both physically and mentally handicapped children. It describes briefly the progress being made as a result of the Social Security Act, and also mentions the Pepper-Boland Bill.

Heaton, Viola, R.N. Orthopaedic field nursing in Missouri. 1940. 17 pages. Mimeographed.

This is the script of a play presented by the field nursing staff of the Missouri State Service for Crippled Children at the Annual Meeting of the Missouri Society for Crippled Children in April, 1940.

O'Connor, Basil. The conquest of infantile paralysis. National Foundation for Infantile Paralysis, 120 Broadway, New York City. 1940. 15 pages.

This is the address given by Basil O'Connor, President, to the First Annual Medical Meeting of the National Foundation in November. Mr. O'Connor reports on the work and expenditures of the Foundation in the fields of virus research, nutritional research, after-effects research, epidemics and education.

EDUCATION

McIntire, Hazel C. Special education for the physically handicapped. The Ohio State Medical Journal, December, 1940. Vol. 36, No. 12, pg. 1297.

An address read at a luncheon of the Section on Public Health and Preventive Medicine of the Ohio State Medical Association in May, 1940.

Masten, Mabel G. Mental hygiene problems of the crippled child. Journal of Exceptional Children, December, 1940. Vol. 7, No. 3, pg. 109.

The educational and emotional problems of the crippled child, and especially of the cerebral palsied child, are discussed in this article.

Power, F. Ray and Barker, Marvin R. Education for handicapped children in West Virginia. State of West Virginia, Department of Education Bulletin, November 15, 1940. 32 pages.

This manual is the initial attempt in West Virginia to promote a program of education for the handicapped. It makes an attempt to set up principles to govern the teaching of the physically and mentally handicapped children and to guide in the organization and administration of special classes for these children.

In the section on crippled children, the following topics are discussed: crippling conditions; segregation or non-segregation; transportation; size of class; length of school day; selection of classroom; classroom equipment; rest periods; physiotherapy; teachers for the homebound; and teachers for hospitals and convalescent homes.

HOSPITALIZATION

Corwin, E. H. L., Ph. D. Minimum standards for convalescent hospitals. Hospitals, December, 1940. Vol. 14, No. 12, pg. 23.

The author lists fifteen "simple and practical requirements for convalescent care," among which the following is of special interest:

"10. In the case of orthopedic patients the concept of convalescence should extend beyond the patient's stay in a convalescent home. A physical handicap may make it necessary for the patient to find a new outlet for his economic usefulness. A complete orthopedic convalescent program should, therefore, include training to fit the patient into a new occupational pattern. Vocational training is hardly possible in a convalescent institution unless it be of a specialized type."

Houston, Genevieve, R.N. When poliomyelitis strikes. The American Journal of Nursing, December, 1940. Vol. 40, No. 12, pg. 1359.

The story of how the Pierce County Hospital in Tacoma, Washington, met a poliomyelitis epidemic last May by opening up an old annex for an isolation hospital is interestingly told in this article. Besides this, many suggestions are given on the nursing care of poliomyelitis patients, especially those in respirators.

Neustadt, Elsa. A room of their own. The Modern Hospital, December, 1940. Vol. 55, No. 6, pg. 57.

This article advocates and describes occupational therapy rooms for children's hospitals, and describes numerous occupational and recreational therapy activities for child patients.

Reynolds, M. K. Marquette creates iron lungs for an emergency. Hygeia, December, 1940. Vol. 18, No. 12, pg. 1077.

The dramatic story of the building of an emergency "double-barreled" respirator by the author and his employees at his boat repair shop. The respirator, built in three or four hours while the stricken victims of poliomyelitis were being given manual artificial respiration, saved two lives. During subsequent days of the Michigan epidemic, five other emergency respirators, accommodating six patients, were constructed, some from plywood and some from oil drums.

Walsh, William Henry, M.D. Essentials in planning institutions for convalescent care. Hospitals, December, 1940. Vol. 14, No. 12, pg. 28.

VOCATIONAL REHABILITATION

Chester, E. P. Vocational rehabilitation of the disabled. National Rehabilitation News, December, 1940. Vol. 5, No. 12, pg. 18.

Faulkes, W. F. Whither shall we go? National Rehabilitation News, December, 1940. Vol. 5, No. 12, pg. 4.

This article, directed to the members of, and discussing the future of, the National Rehabilitation Association, contains a history of vocational rehabilitation in the United States and a resume of present and future expansion in the national program.

New Jersey's research project. National Rehabilitation News, December, 1940. Vol. 5, No. 12, pg. 16.

An announcement of a book now being planned by the New Jersey Rehabilitation Commission to record the history of rehabilitation in that state from 1919 to date.

Peterson, Arthur. But not from the neck up. The Rotarian, December, 1940. Vol. 57, No. 6, pg. 37.

Mr. Peterson tells the history of the Toledo Secretarial School - a vocational school for young cripples sponsored by the Toledo Rotary Club. He tells how the founder first secured 75 businessmen who agreed to hire handicapped young people, and then got the Rotary Club, the Board of Education and the state rehabilitation service to provide the training school. Success stories of graduates of the school are enthusiastically presented.

Stanton, H. L. Repairing watches and men. National Rehabilitation News, December, 1940. Vol. 5, No. 12, pg. 1.

The story of a vocational training school for watch repair men founded and sponsored by the North Carolina vocational rehabilitation service.

MISCELLANEOUS

Driver education and training manual for high school teachers. American Automobile Association, Washington, D. C. 1940. 136 pages. 25¢.

Bureau of Information, National Society for Crippled Children, Inc., Elyria, Ohio

DECEMBER, 1940 LIST OF BOOKS
(A Bibliography on Crippled Children)

Books listed here may be borrowed from the Bureau of Information of the National Society for Crippled Children. A fee of 25¢ is charged for a loan of from one to four books at one time. However, individuals who are staff members, students, board members, or in any other way affiliated either with an institution, school or other agency having Institutional Membership in this Society, or with an affiliated state or local society for crippled children, may borrow books free of charge.

Books are loaned for a period of two weeks. At the end of this loan period, if no other persons are waiting to receive the book(s), an extension of time will be granted upon request.

Books are sent by U. S. Mail, at the book rate of 1½¢ per pound. Books sent by this rate may be wrapped, but must not be sealed, and must contain no personal messages.

Each book in this list is numbered. At the end of the list appears an index or classification in which the books are listed by number, according to the subjects discussed.

1. Abt, Henry Edward. The care, cure and education of the crippled child. 1924.
2. American medicine. 1937. (compiled by The American Foundation, Inc.)
3. Baker, Harry J. The art of understanding. 1940.
4. Bennett, Henry E. School posture and seating. 1928.
5. Bick, Edgar M. Source book of orthopaedics. 1937.
6. Bing, Lucia Johnson. Social work in greater Cleveland. 1938.
7. Body mechanics - education and practice. 1932. (Subcommittee report, White House Conference on Child Health and Protection.)

Classification of Books by Subject

Autobiography and biography of cripples: Books number 8, 9, 23, 24, 44, 91, 98, 101, and 103.

Cerebral palsy: Books number 19, 25, 31, 44, 47, 50, 60, 69, 76, and 79.

Convalescent care: Books number 1, 11, 14, 17, 19, 22, 32, 49, 53, 63, 64, 75, and 89.

Directories: Books number 13, 21, 22, 37, 63, 73, 75, 85, and 86.

Education: Books number 1, 19, 26, 27, 28, 29, 35, 36, 41, 42, 53, 60, 63, 64, 75, 76, 80, 82, 83, 87, 88, 96.

Foreign countries: Books number 22, 23, 24, 27, 32, 37, 45, 55, 84, 93, 95, 98, and 103.

History of care for cripples: Books number 1, 5, 28, 33, 35, 36, 45, 51, 63, 75, 91, 93, 98, 99, and 100.

Hospitals: Books number 1, 2, 11, 17, 19, 22, 37, 52, 53, 61, 75, 82, and 93.

Physiotherapy and occupational therapy: Books number 18, 34, 38, 53, 57, and 61.

Poliomyelitis: Books number 46, 57, 61, 68, 89.

Programs for crippled children: Books number 1, 6, 16, 19, 22, 27, 32, 35, 36, 37, 39, 51, 63, 66, 72, 75, 83, 84, 87, 93, 98, and 102.

Psychology: Books number 3, 20, 26, 30, 59, 60, 79, 92, and 97.

Recreation: Books number 19, 50, 53, 58, 63, 69, 76, 88.

Social work: Books number 6, 10, 13, 14, 16, 26, 51, 53, 54, 56, 72, 73, 78, 84, 85, 86 and 94.

Statistical information: Books number 11, 19, 27, 36, 39, 46, 65, 87, and 102.

Vocational problems: Books number 19, 27, 36, 41, 51, and 83.

Crippling conditions: Books number 4, 5, 7, 8, 14, 25, 44, 49, 57, 60, 62, 65, 67, 68, 71, 74, 76, 77, 79, 81, 89, and 92.
